Here is a view of our pricing structure. These prices reflect the use of OUR judgement (and or instructions received BEFORE the session*) in the placement and arrangement of the items. We will follow your instructions as closely as possible and use our experience to display your items at their best. As well, these prices reflect an **uninterrupted** session. We can generally complete a session (50 or fewer items) within 7 days. Upon completion the client will receive a soft-proof of the images sent by email. The client can review the images at this time and order additional images or reshoots if necessary. Additional shots and reshoots are billed separately.

We do welcome and value those clients requesting more involvement, however, pricing is charged by the hour in such cases. Requests for multiple angles or previews as the session is being conducted is time consuming and therefore our "streamlined" pricing structure no longer applies. On those occasions where the client directs the production of an image/s before or AFTER a session has commenced, our services will be billed at \$125.00 per hour (client present on-site: \$200.00 per hour).

*The client will submit clear written/illustrated instructions received with the items or emailed (NOT by fax or telephone). Photo samples should be printed or placed on CD and sent with the items.

See the following helpful page in choosing camera angles for simple objects. Merely record the view values (i.e.: 3F) and submit with the item to be shot. Otherwise we will use our judgement.

Please print and sign this page and send with the items to be photographed.
